2.2.1: The institution assesses the learning levels of the students and organises special Programmes for advanced learners and slow learners

At PJCCE, we believe in outcome-based learning processes, where we identify students as slow learners and advanced learners based on the prerequisite tests, class interaction, test performances. We at the institute, give emphasis on improving the performance of slow learners by providing remedial programmes which are conducted outside regular classes. Specifically, for difficult to understand subjects, extra classes are taken for students who have failed in the exam where the faculty spares time to sit with those students individually to cope up with the subject. Through a mentor-mentee system also all kinds of support are provided to the slow learners. The strenuous efforts taken by the faculty towards the slow learners has resulted in students' understanding in their chosen domain, improved results and pass percentage. The mentor also identifies other skills and strengths and encourages them to hone them which helps build self-confidence resulting in improvement in academic performance also. The mentor takes extra effort to understand the socio-economic backgrounds also which is sometimes a reason for poor performance. All necessary emotional and professional counselling is also provided whenever required. The mentor also connects the weak learners for the subject teachers with whom they are comfortable for extra support. The Institute ensures that a slow learner clears all his courses within stipulated four years of Engineering and also provides extra attention to build additional skills which makes them employable. Parents of students are informed in case of poor academic performance and psycho-social problems whenever necessary. Advanced learners are given opportunities to be part of innovative projects and other technical initiatives of the institute. The toppers of each class are appointed as Class Representatives and Heads of Departments Nominee for the department who are part of students' forum so as to give a chance to develop their communication, leadership & team building skills. They are also given an opportunity to be office bearers of student forum and various professional bodies and lead professional activities at University and National Levels. This initiative teaches them to strike a perfect balance between academics and extra & co-curricular activities which goes a long way in achieving success in their professional career. They are given the opportunity to participate in Hackathons, Paper Presentations, Project Competitions and participate in Summer Projects and Internships. They also help slow learners through peer learning. We also encourage advanced learners to conduct workshops and seminars to share their knowledge. They are also part of the institute's social responsibility where they support the faculty members by teaching and providing skills to the underprivileged students.

PJLCE COMPETITIVE EXAMINATION CELL

PJLCE since its inception has produced many stalwarts who have made their mark in various fields and have contributed to the development of our nation. Lately, as the role of the state is increasing, there is a need for a strong and efficient bureaucracy, which can be performing its duties in an ethical and accountable manner, and support the edifice of the general administration in various fields. For this, our institute has started a Competitive Examination Cell, for creating and honing ethical, efficient, competent bureaucrats who can assimilate their knowledge with administrative acumen and serve on the vanguard of the government machinery. This cell prepares the students to face different competitive examinations like GATE / UPSC / MPSC / GRE / TOEFL. Besides, through this cell, the college organizes various activities for the development of the students. It also aims to encourage the students to general reading, general observation, thinking power for reasoning, and develop courage for facing various competitive examinations.

AIMS & OBJECTIVES

- To motivate students for prospective career in Government and Corporate Sector.
- The main objective is to make available a platform, for aspirants of GATE/ GRE/ TOFEL/ UPSC/ MPSC, and other competitive examinations, where they can get all the help and guidance they need.
- To guide students for Group Discussion and Interviews.
- To build among students a sense of awareness, provide guidance, necessary literature, brochure, and other information about various competitive examinations.
- To conduct career development seminars and workshops on competitive exams.
- To conduct mock interviews and train students in personality development and communication skills.
- Arranging guest lectures on various topics by eminent personalities, to impart knowledge about various pressing issues of today and current affairs useful for examination preparation.
- Providing comprehensive and quality study material and guidance for students who cannot afford coaching classes.
